

## MCSL-016

### Qns 1: Create a web site for a School consisting of the following pages:

a) The **Home page** should consists of four areas containing the following information:

- Header area containing the logo, name of the school and a photograph of the school. Make sure that you use a good picture format.
- Left area containing the links to other pages - these links should include - About us, Academics, Infrastructure, Contact us and Feedback.
- The Content area should display a table showing list of upcoming events of the School along with dates.
- The Footer area should display the copyright information and current date and time.

You need to make sure that the Header and Footer area is same across all the pages of the website.

Ans:

For Main Page Area for Creating Frames: Index.html

g) Write a program using VBscript that adds only diagonal elements of two matrices. The program should be efficient.

Ans:

```
hh'vb script program to find sum of diagonal elements in the given matrix '
declare double dimensional array
dim a(2,2)
dim sum,k sum=0 k=0
for i=0 to ubound(a,1)
for j=0 to ubound(a,2)
a(i,j)=cint(inputbox("enter elements"))
next
sum=sum+a(i,k)
k=k+1
next
msgbox sum
```
